CAREER OBJECTIVE

Global Markets Dealer in Corporate Sales at UOB Malaysia, PKMC-licensed (Modules I–IV) and a CFA Level I passer, with a Finance and Economics degree from Monash University. Experienced in managing corporate client relationships, delivering FX and money market insights, and executing client transactions accurately in a fast-paced dealing environment. Seeking to grow in a Global Markets sales role where I can deepen client coverage across FX and Rates, identify cross-sell opportunities, and drive process improvement and digitalization on the desk.

WORK EXPERIENCE

United Overseas Bank (Malaysia) Bhd, Kuala Lumpur, Malaysia **Dec 2025 - Present**

Dealer, Corporate Sales – Global Markets

- Develop and maintain relationships with corporate clients by delivering timely market updates and analysis on FX majors and MYR (USD, EUR, GBP, JPY, CNH, SGD, AUD).
- Execute client FX spot, forward, extension and early take-up transactions, ensuring accurate pricing and timely, error-free delivery through close coordination with trading and operations.
- Support senior salespersons in covering key large corporate clients by delivering regular updates and market views on FX rates and swaps to inform the clients on hedging decisions.
- Drive client adoption of the bank's eFX platforms by pitching their benefits to corporate clients, onboarding new users and running training sessions, moving clients from voice dealing to digital execution.
- Identify cross-sell opportunities across FX and hedging products to deepen wallet share and grow the client base.

Deloitte, Kuala Lumpur, Malaysia **Nov 2024 - Feb 2025**

Strategy, Risk, and Transaction Intern

Specialization: Forensic & Financial Crime

- Analyzed survey data and developed a pitch deck for a multinational client, directly contributing to a successful sales deal for the department.
- Collaborated on an AML audit project, identifying financial discrepancies and showcasing strong analytical skills and attention to detail.
- Supported multiple forensic investigations by assessing whistleblower reports and conducted analysis to ensure regulatory compliance.
- Assisted in a regulatory risk management engagement at a client site, validating shareholder votes in accordance with corporate governance standards.
- Partnered with senior staff to interpret regulatory frameworks and design promotional materials for Deloitte's whistleblowing service platform.

MyForexFunds, Kuala Lumpur, Malaysia **May 2022 - Sep 2022**

Funded Trader

- Generated 8% and 5% returns in the first two months by applying technical and fundamental analysis to investment decisions.
- Implemented risk management strategies by limiting exposure per trade to 0.5% - 1%, ensuring long-term profitability.
- Monitored market trends and key indicators to adjust positions and optimize returns, demonstrating strong analytical and market awareness.
- Maintained discipline and focus in following a structured trading plan, minimizing emotional decision-making and ensuring consistent performance.

EDUCATION & PROFESSIONAL CERTIFICATIONS

Pasaran Kewangan Malaysia Certificate (PKMC) – AICB / ACI-FMAM **Jul 2026**

Completed Modules I–IV; Licensed Dealer

Regulatory Framework of Malaysian Financial Markets; Money Market; Foreign Exchange Market; Risk Management & Basic Derivatives

PROJECTS

Algorithmic Crypto Trading System **Mar 2025 - Dec 2025**
Personal Project

- Developed a crypto trading bot utilizing technical analysis indicators to automate trading strategies.
- Designed and implemented trading strategies, and conducted real-market testing to optimize performance.
- Contributed to the enhancement of the bot by identifying and implementing key features for an improved user experience.
- Integrated the trading bot with a website and a Telegram bot to provide accessibility and real-time trade notifications.

Investment and Portfolio Management Unit: Investment Portfolio Project **Mar 2024 – Jun 2024**
Monash University Australia

- Constructed and managed a diversified investment portfolio including shares, fixed income, and money market funds, aligning asset allocation with client objectives to pursue medium to long-term growth while managing risk.
- Selected securities using analytical methods, applying top-down and bottom-up approaches with fundamental analysis (P/E, P/B, Debt-to-Equity) and technical analysis to identify potential investment opportunities and manage portfolio risk.
- Adapted investment strategies by integrating market analysis and adjusting allocations based on performance outcomes and evolving economic conditions.
- Evaluated portfolio performance using key financial metrics such as correlation, variability, beta, Sharpe ratio, and M-squared to assess risk-adjusted returns and support informed decision-making.

EXTRACURRICULAR ACTIVITIES

Deloitte AdvantEDGE: Case Study Competition **May 2025**

- Won First Place in the Deloitte AdvantEDGE Case Competition by presenting innovative business solutions to real-world industry challenges under tight deadlines.
- Led a team of 5 members as Team Leader by coordinating late-night strategy sessions, delegating tasks effectively, and ensuring delivery of a compelling final pitch to judges and mentors.
- Collaborated with Deloitte mentors and peers across disciplines, integrating real-time feedback into strategic recommendations; strengthened communication and critical thinking under pressure.

Captainball Club – Member **Jul 2023 – Aug 2024**

- Competed as a club player in leagues and tournaments, fostering collaboration and strategic thinking while showing adaptability under pressure and a results-oriented approach to team objectives.
- Contributed to the team's success in achieving multiple medal wins by focusing on achieving goals and commitment to consistent improvement.
